About: These are sample app release notes for a made up e-reader, similar to the kind of documentation I work on for Google Play: **https://support.google.com/googleplay/answer/13585779**

Release Notes for e-reader app

Updates to the eReader app make your reading experience more reliable and give you new features to help you discover, borrow, and read library books more easily.

October 2025 Update

• Adds a streak tracker that shows how many days you've read in a row
• Lets you filter your reading list by ebook, audiobook, or magazine format
• Improves offline downloading to reduce storage usage

September 2025 Update

• Adds an option to let you automatically borrow a book when a hold becomes available
• Lets you customize the app icon with seasonal themes [link]

August 2025 Update

• Allows you to recommend books to family members using the same library card with a new **Family Sharing** feature
• Improves the chapter navigation of the audiobook player
• Performance improvements

July 2025 Update

• Adds a section to let you create tags used to find your books by theme
• Adds more font options for ebook reading, including OpenDyslexic
• Performance improvements

June 2025 Update

• Adds a "Read It Again" shelf that automatically tracks books you've borrowed multiple times
• Lets you set reading goals and track your progress throughout the year
• Improves algorithm to show more relevant search results

May 2025 Update

• Adds a two-finger zoom-in gesture to more easily read charts and tables in ebooks
• Lets you export your reading history as a CSV file
• Adds a sleep timer for audiobooks with custom time options

April 2025 Update

• Lets you preview the first chapter of an ebook before borrowing

- Improves hold notifications to show estimated wait times
- Adds a dark mode option to the library browse screen
- Adds the ability to let sort your shelves by title, author, or date added

March 2025 Update
- Adds an option to hide books with long wait times from search results
- Lets you listen to audiobooks at speeds from 0.5x to 3x

February 2025 Update
- Adds a widget to the home screen that shows your current book's reading progress
- Adds a reading stats page that shows your total books borrowed, pages read, and listening time
- Process improvements

January 2025 Update
- Adds an audiobook bookmarking feature that lets you save favorite moments with notes
- Lets you customize playback speed separately for different audiobooks
